

## **BGSC Nov 11 Tournament Update – Sent Nov 10 at 11:08 AM**

One small change to tomorrow's event, we have moved the **Shoot Out Stations** from the end zones on Field #1 down to **Field #5** (next to Christine Sinclair Community Centre). PDF map is attached. This may mean a bit of a jog for teams competing on Field #1 to get to the Shoot Out on time but the running will help keep them warm.

We have received a few questions concerning the use of propane heaters and BBQ's on site.

Propane heaters are permitted to be used in the tent/common areas provided they do not have an open flame. These heaters cannot be taken on to the turf fields.

Propane BBQ's are not permitted to be used on site under the terms of our contract with the City for the use of the facility. The City provides concession services for the event therefore no other food preparation is permitted on site. Teams may bring food but cannot prepare food (i.e BBQ) at BLWSC.

Lastly just a reminder that the turf field areas are for players, team and game officials only. Spectators are to remain outside the fences. For the Shoot Out stations spectators may get a bit closer but please remain off the main portion of Field #5.

Forecast is for dry weather!!
